Office Action Summary

Art Unit: 2154

1. Claims 1-15 are presented for examination.
2. Applicant's election of Group II claims 3-6, 10 and 13-15 in Paper No. 6 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
3. Claims 1,2,7,8,9 and 11-12 are withdrawn from further consideration.
4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
5. Claims 3-6, 10 and 13-15 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Detailed specification is nothing more than a high level discussion of desired end results and input data, none of the required details of how one would make the invention are detailed. The courts have held that a suggestion to do does not rise to the level of invention .
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
